Captain Drug Buster and Dr. Wacko are in the midst of a battle.

"It seems that I win this round," said Dr. Wacko.  
"No, you won't! I will not be defeated!" exclaimed Captain Drug Buster.

Dr. Wacko waves the phone in his hand.

Feeling weak, Captain Drug Buster gets sucked into the phone.

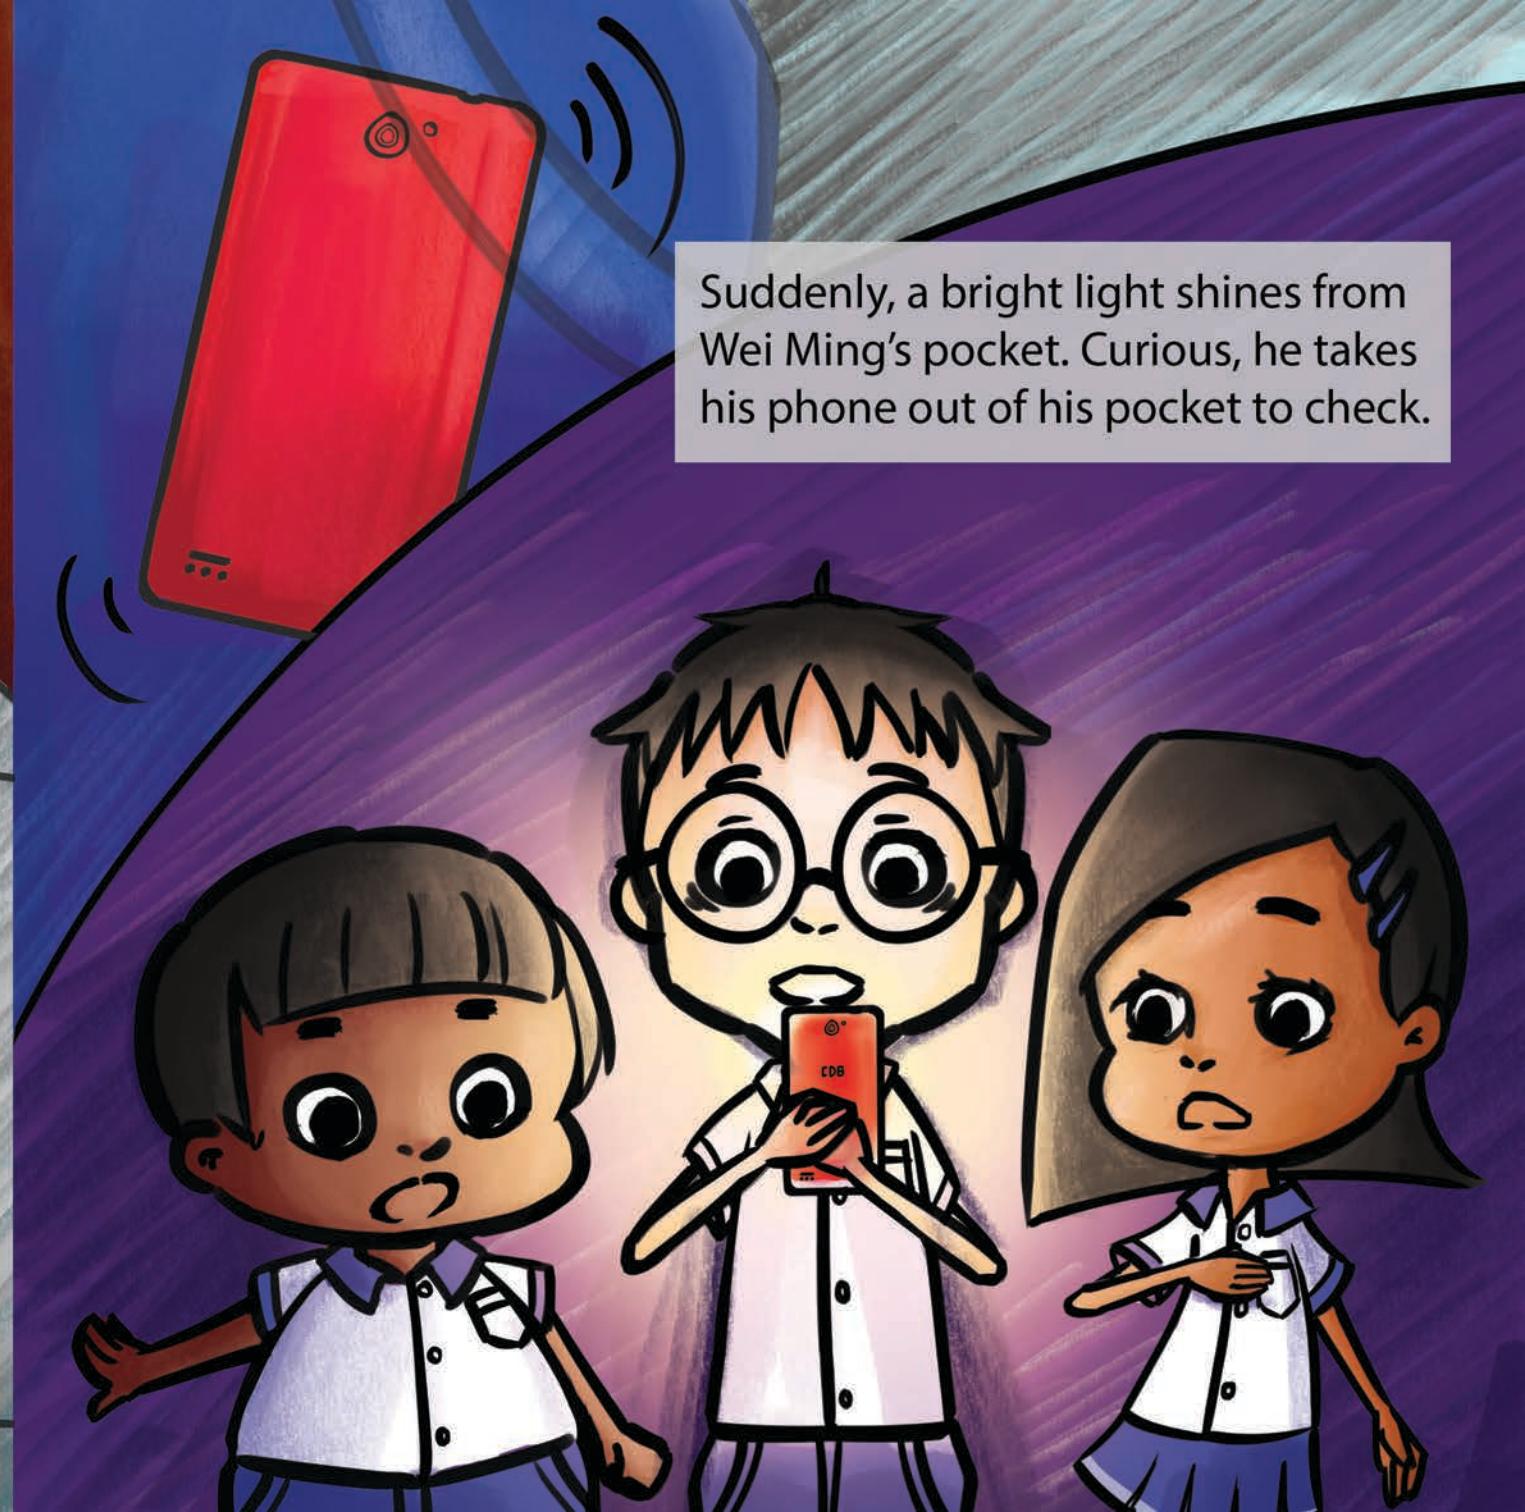

School holidays are around the corner and all the children are excited! Aida, Pavan and Wei Ming are happily walking home together from school.

"So, what are your plans for the school holidays?" Aida asked.

"I'll have to confirm with my parents again, though it seems like we might be going to the amusement park!" said Pavan.

"I will be visiting my relatives and I can't wait to play my new video games!" said Wei Ming.

Suddenly, a bright light shines from Wei Ming's pocket. Curious, he takes his phone out of his pocket to check.

"OH NO, MY PHONE! IT IS TALKING TO US!" exclaimed Wei Ming. "Don't worry, your phone is fine. However, I need your help." said Captain Drug Buster.

"I am Captain Drug Buster and my mission is to stop and prevent the abuse of drugs. However, I have been trapped by Dr. Wacko in this phone."

"Dr. Wacko is a villain who destroys lives by selling drugs. He must be stopped before more victims fall to his evil plans! I need your help to stop him!"

"It sounds like you really need our help...b-but what can we do to stop such a scary villain?" Wei Ming asked.

"Have confidence in yourselves! I may be stuck in a phone, but I will give you some gadgets to help you in this fight." replied Captain Drug Buster.

"You may use the visor to track down the drugs, which take the form of monsters that Dr. Wacko has sent to different parts of Singapore."

"You can use this armband to defend yourselves against attacks from the drug monsters."

"These lightning bolts contain powerful energy that will help you to destroy those monsters."

Armed with Captain Drug Buster's gadgets, the kids went searching for Dr. Wacko and spotted the first drug monster at a HDB void deck.

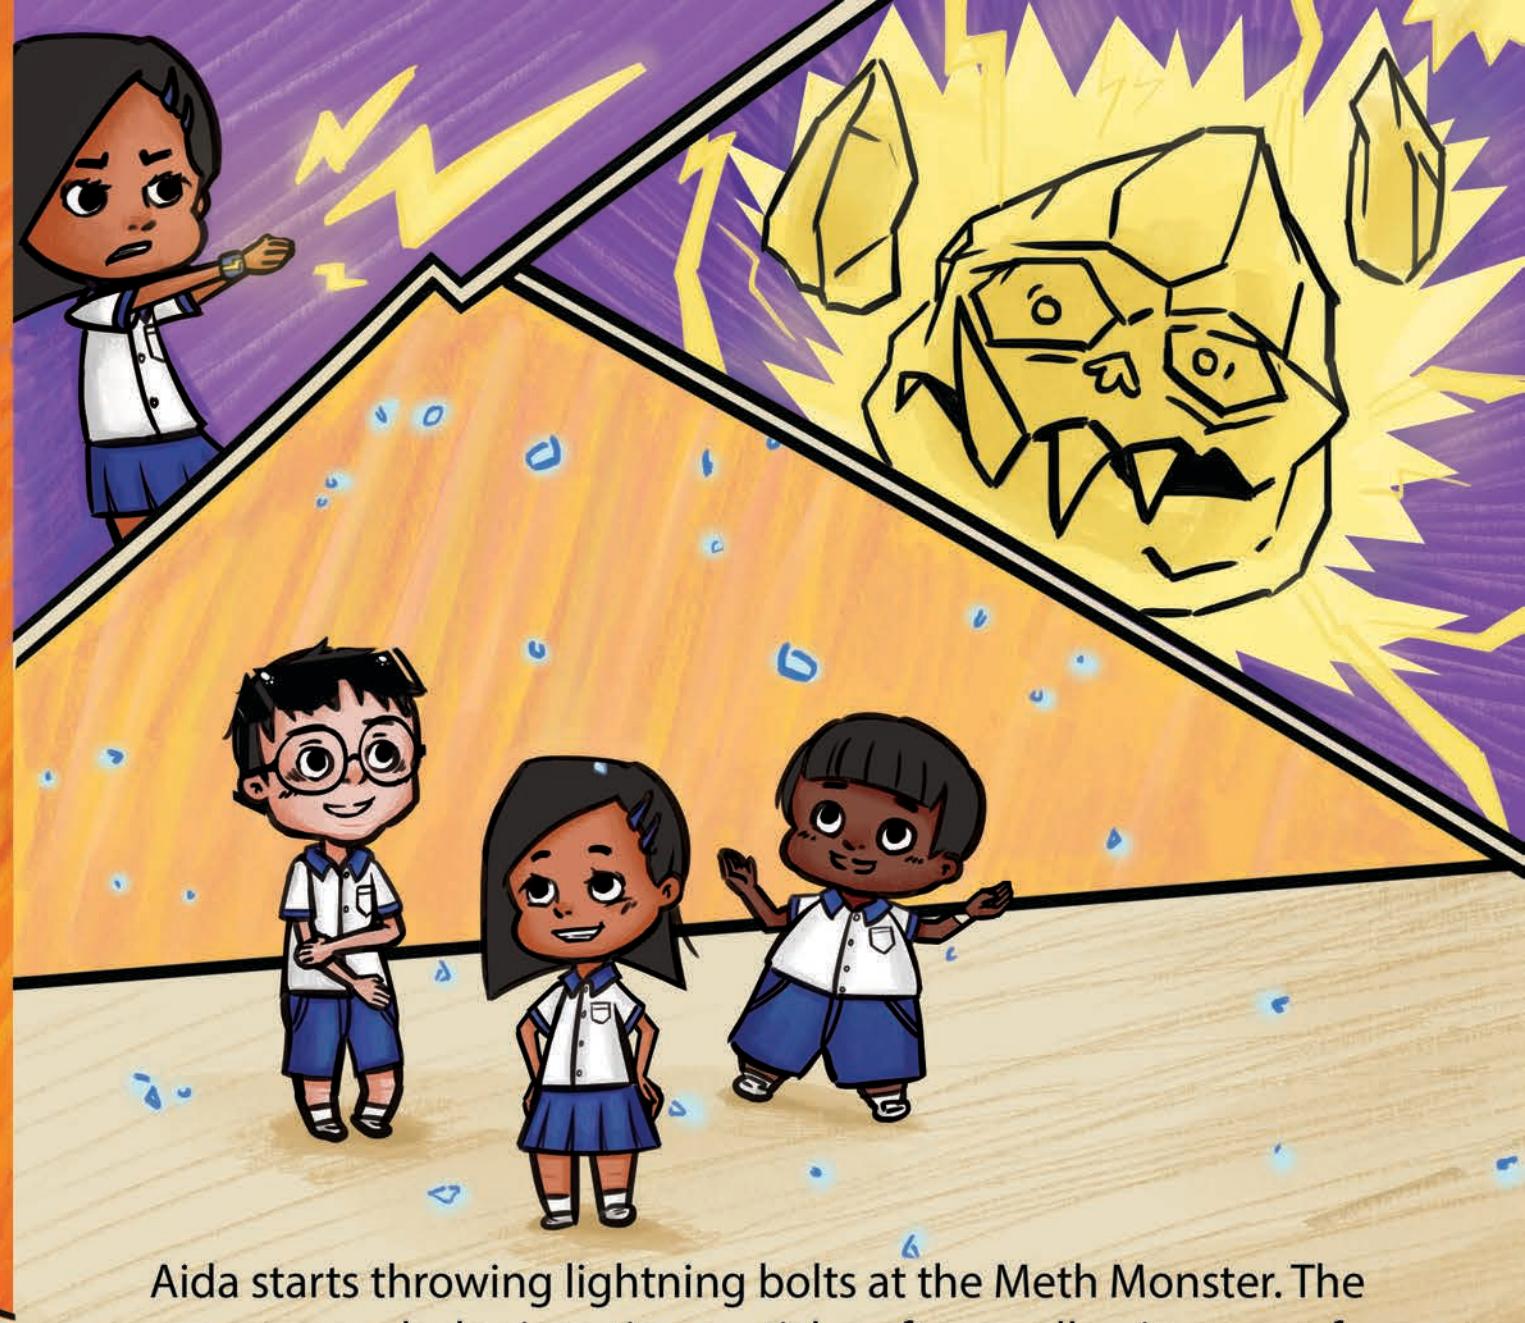

## Meth

It is an icy crystal monster that causes the victims to experience stress, extreme tiredness and abnormal behaviour with mood swings.

The Meth Monster notices the kids and attacks them. Sensing danger, Pavan uses the armband to shield him and his friends from the attacks.

Aida starts throwing lightning bolts at the Meth Monster. The monster explodes into tiny particles after swallowing one of the lightning bolts.

With the Meth Monster defeated, Wei Ming scans the vicinity carefully with the visor.

After making sure that the area is rid of drug monsters, the kids approach the victim.

The victim regains consciousness and explains that he had purchased the drugs from Dr. Wacko's website to help him in his exams.

Captain Drug Buster explains that drugs do not relieve exam stress or boost performances.

He adds that everyone should realize their own potential and not rely on drugs.

He encourages the victim to engage in sports or outdoor activities to relieve stress during the exam period.

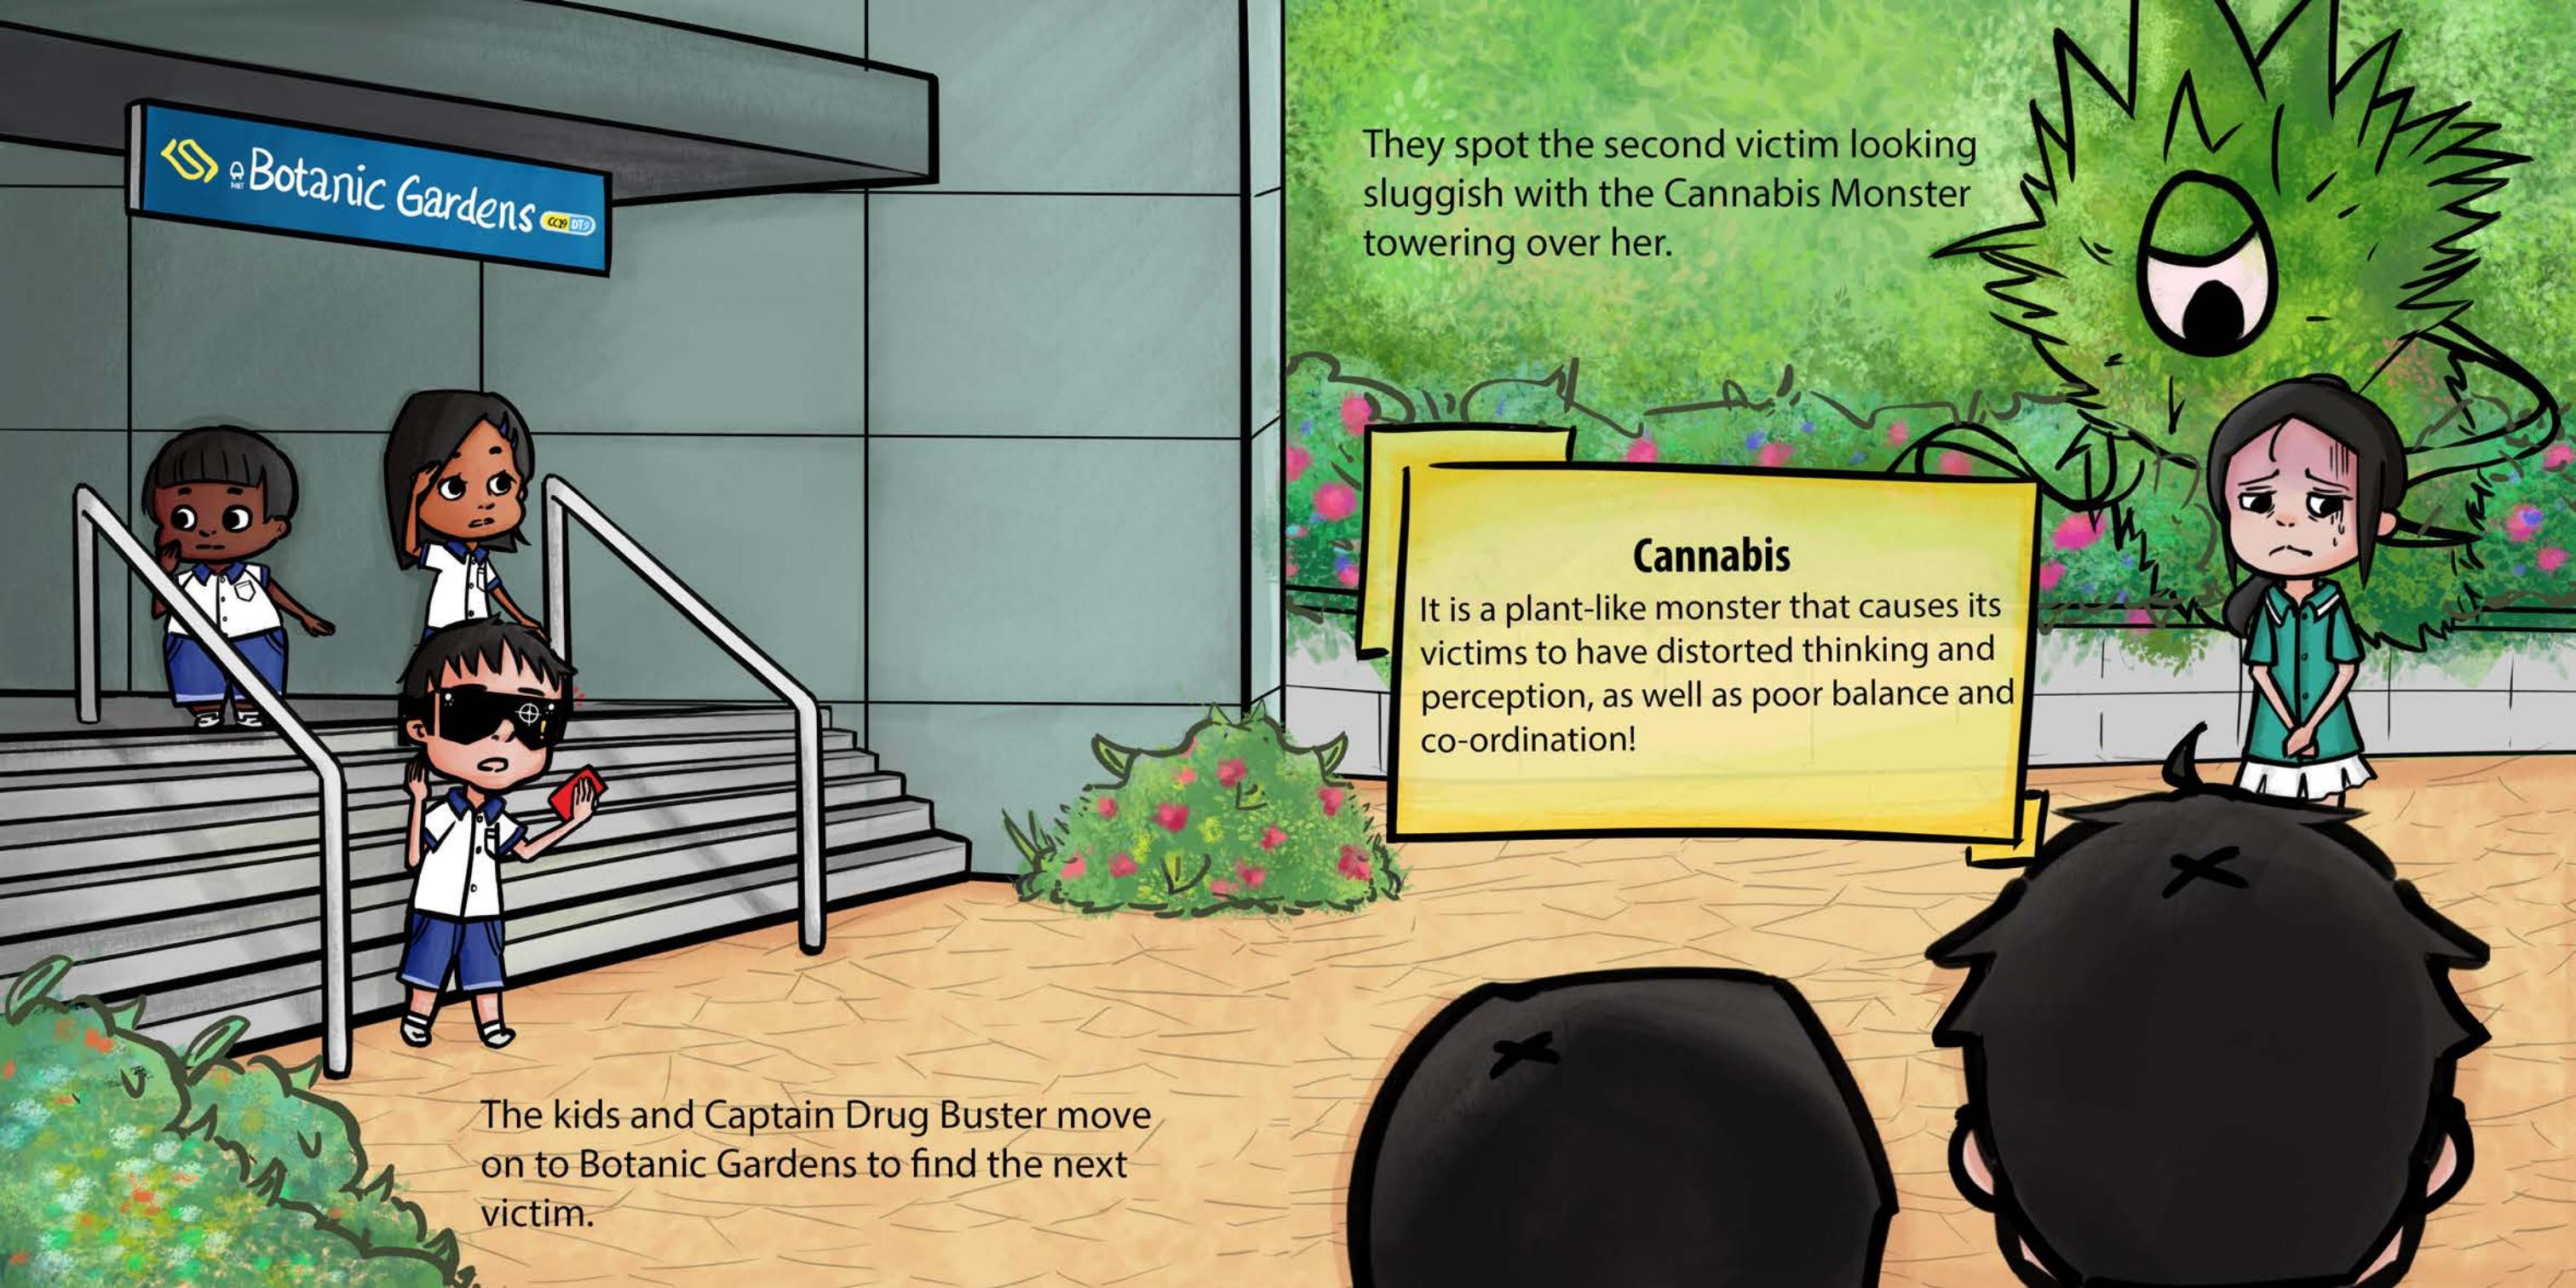

The victim thanks Captain Drug Buster and the kids for their help.

They spot the second victim looking sluggish with the Cannabis Monster towering over her.

**Cannabis**  
It is a plant-like monster that causes its victims to have distorted thinking and perception, as well as poor balance and co-ordination!

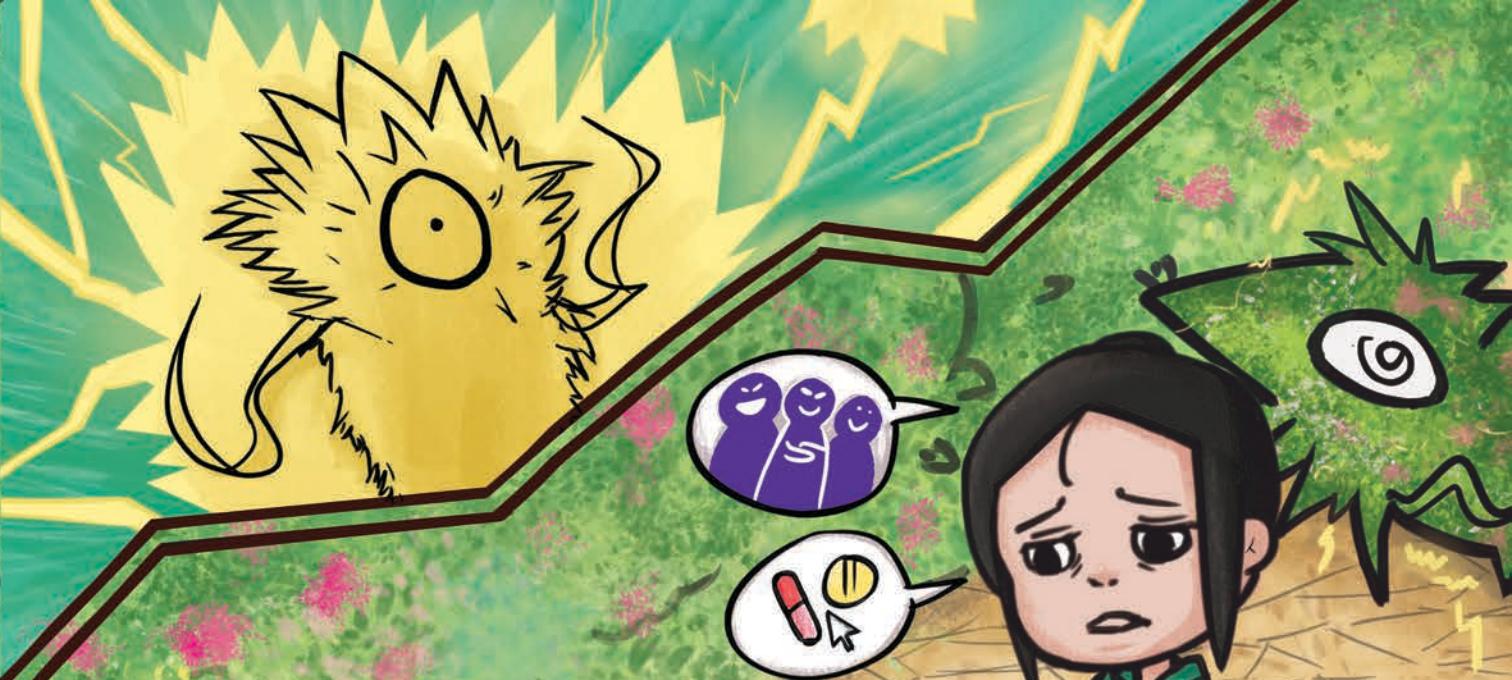

The kids and Captain Drug Buster move on to Botanic Gardens to find the next victim.

The Cannabis Monster spots the kids and quickly hides itself among the plants.

"Aida! The Cannabis Monster is hiding among those trees!" Wei Ming yelled.  
"Got it!" Aida responded.

Upon destroying the Cannabis Monster, the kids quickly approach the victim to check on her.

She weakly explains that the kids in school had offered her the drugs.

Scared of being left out, she accepted the offer.

Captain Drug Buster explains that it is important to choose our friends wisely and to refuse any offers to take drugs. He encourages the victim to seek true friends who will accept her for who she is.

Grateful for the encouragement, the girl thanks them and bids them goodbye.

Captain Drug Buster and the kids continue their search and arrive at Marina Bay Sands, where Captain Drug Buster believes Dr. Wacko would cause trouble.

Wei Ming uses the visor to scan the area and spots the third victim! The Heroin Monster is right next to him!

**Heroin**  
A monster that looks like a dragon. Victims of this drug experience tremors, bodily cramps as well as irritable and jittery feelings.

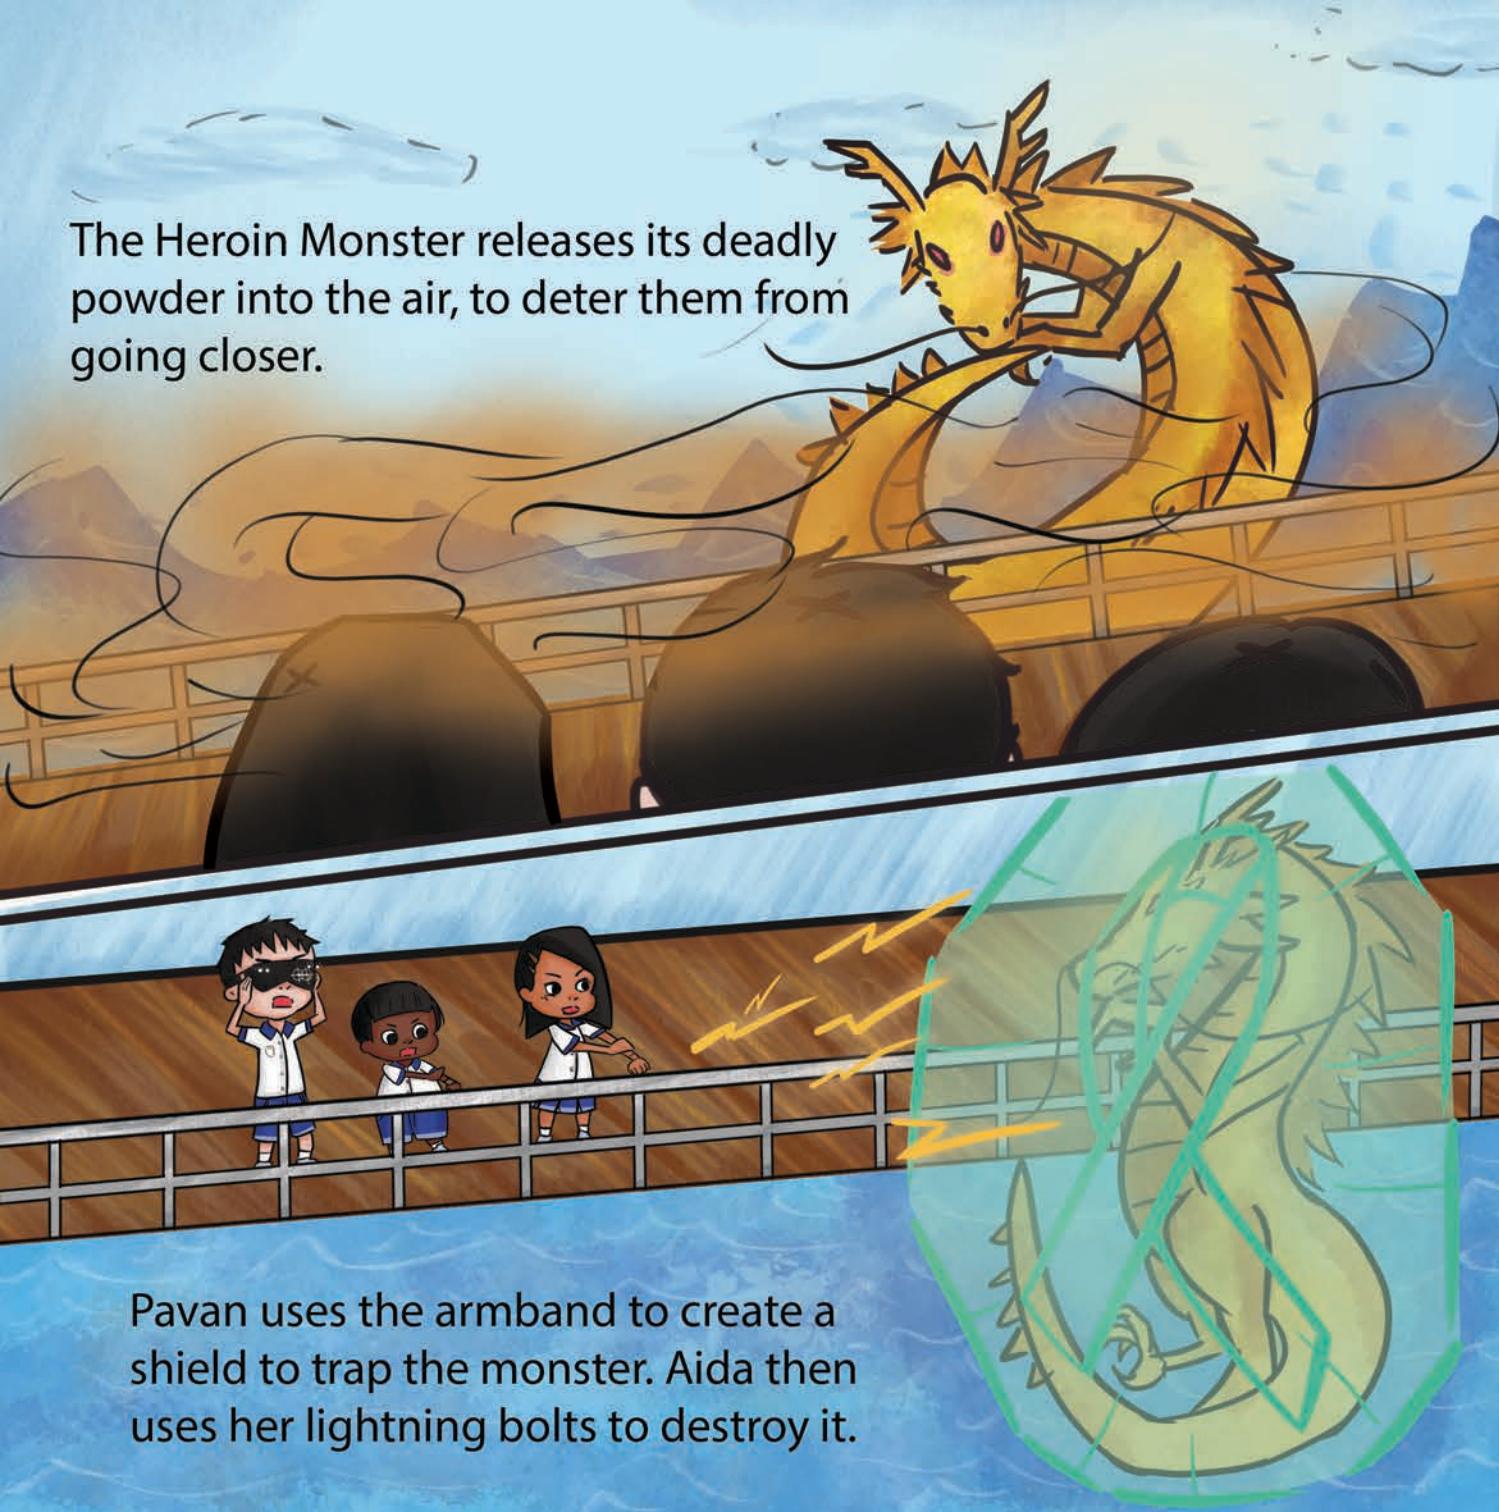

Wei Ming prompts the team to approach the Heroin Monster and the victim. The Heroin Monster then begins its attack on the kids.

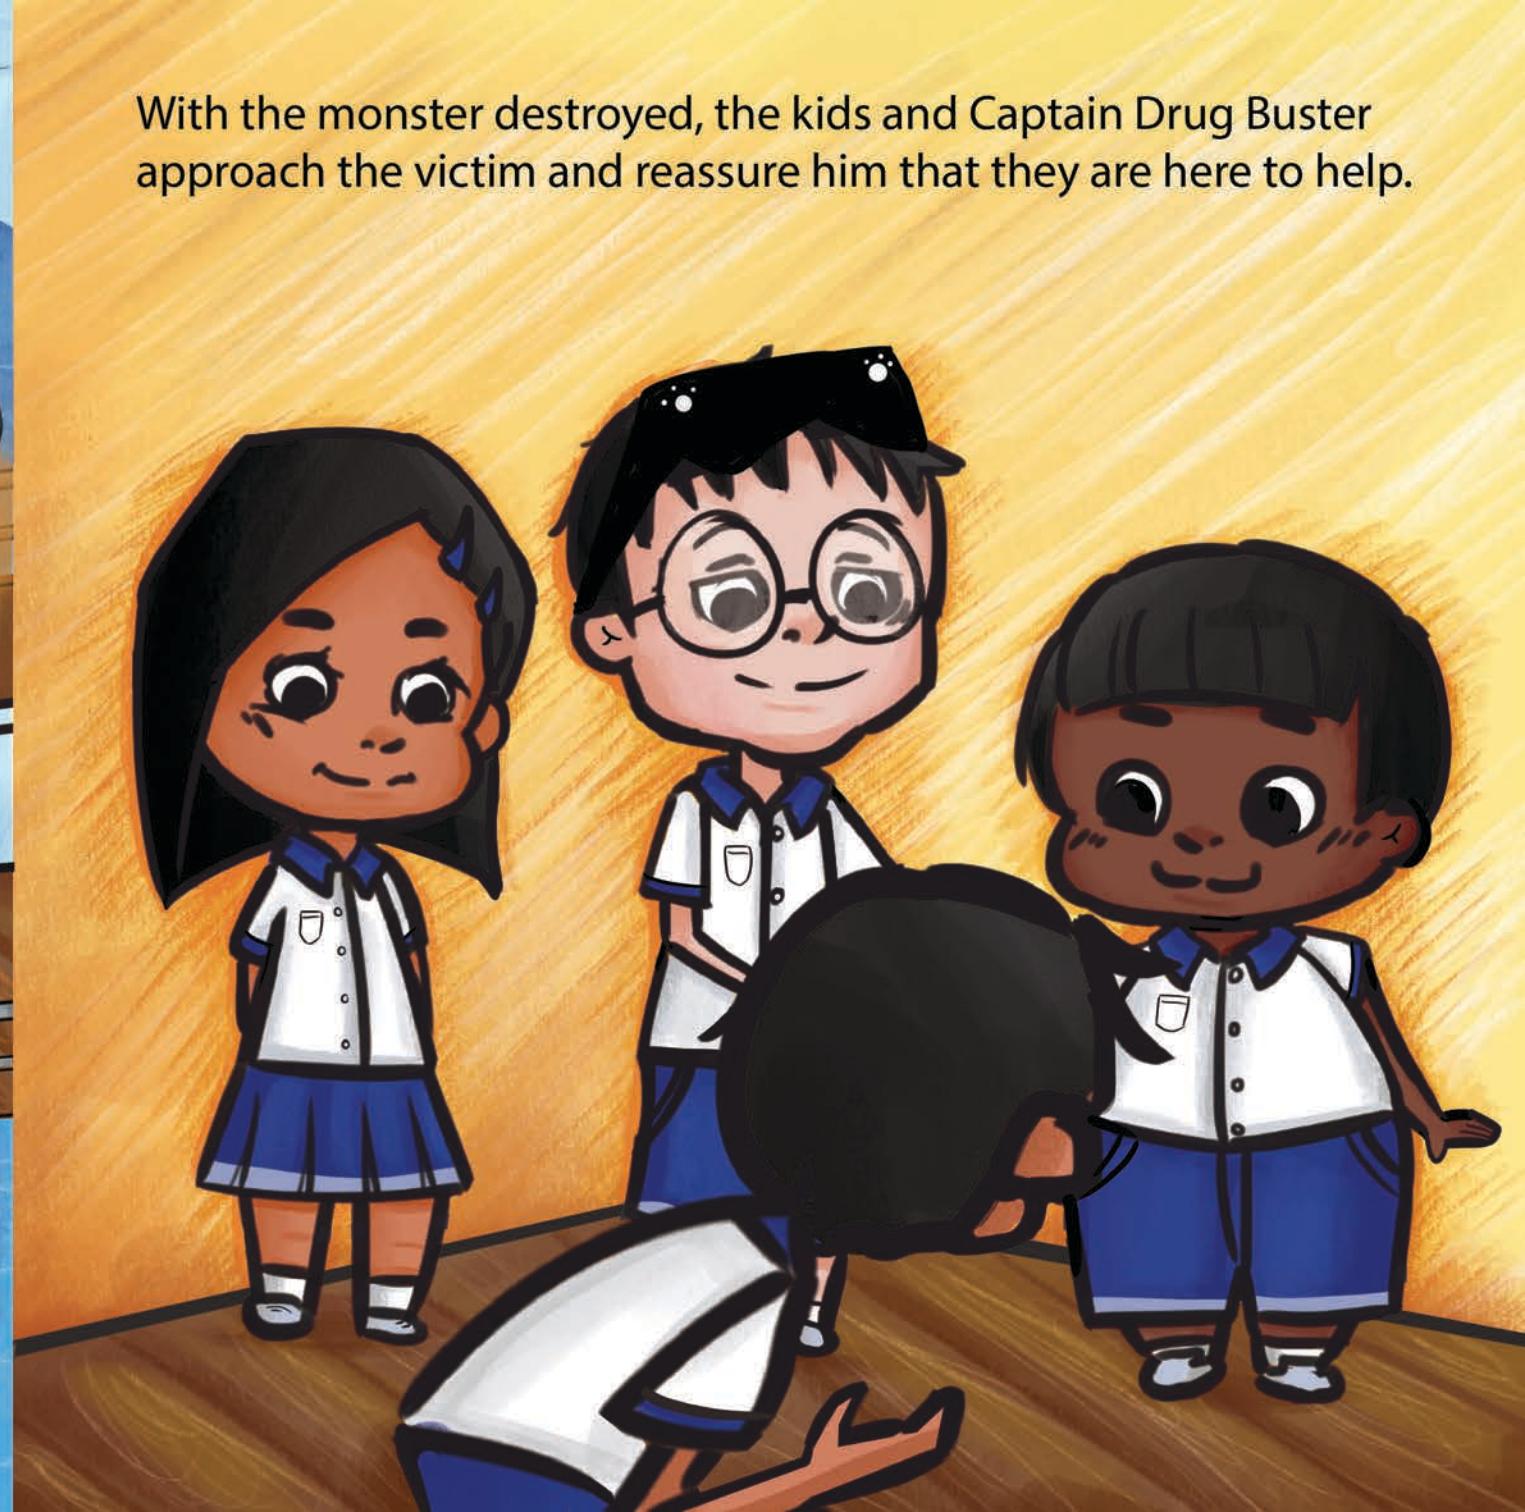

The victim collapses on the floor and trembles in fear as the Heroin Monster inches closer to him.

The Heroin Monster releases its deadly powder into the air, to deter them from going closer.

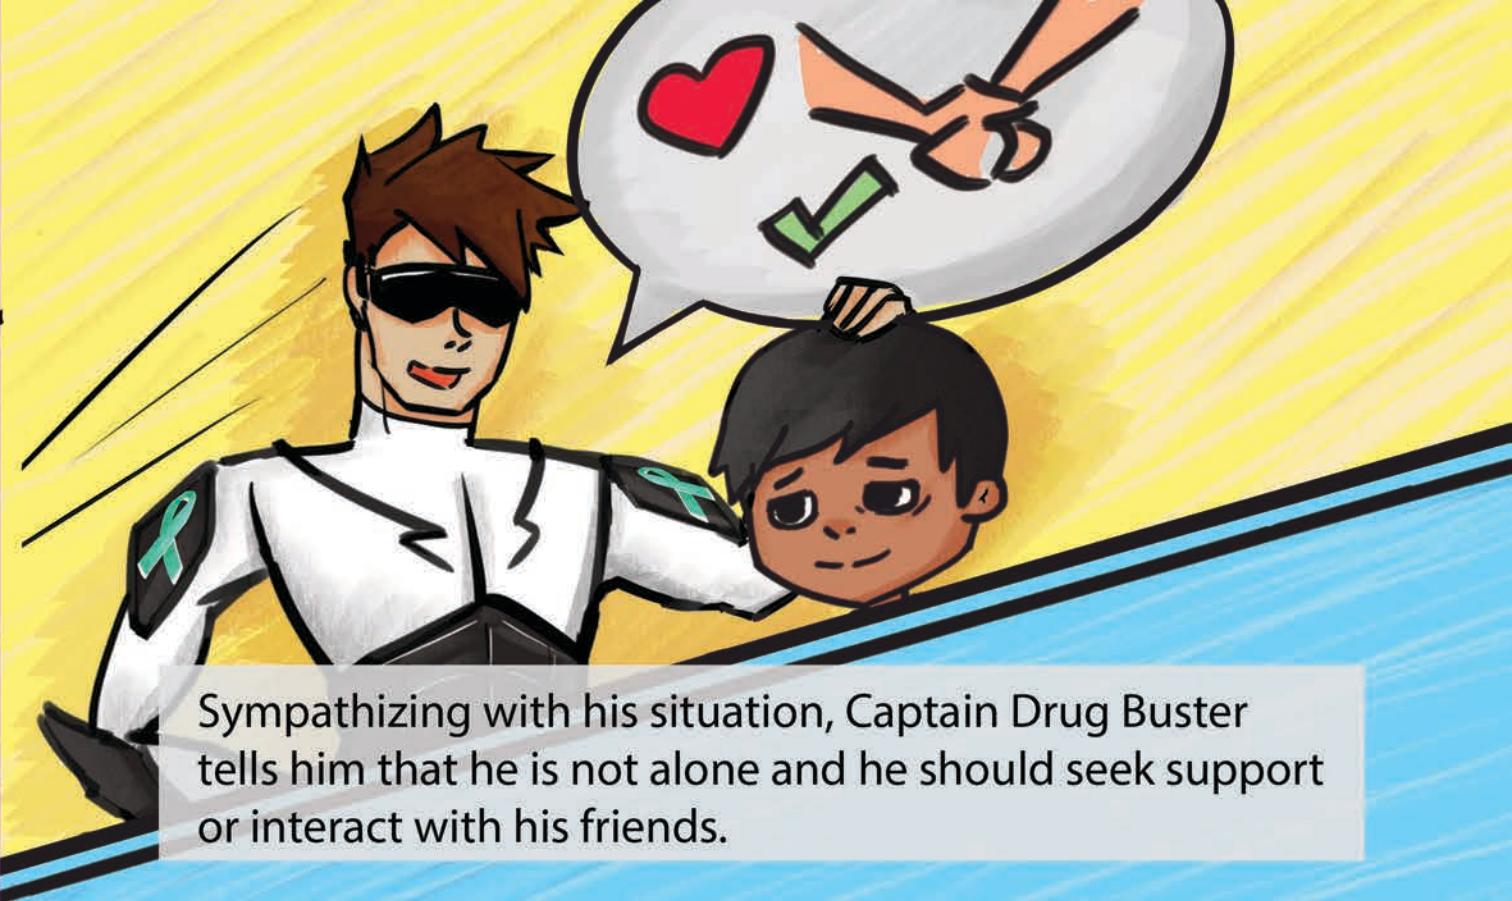

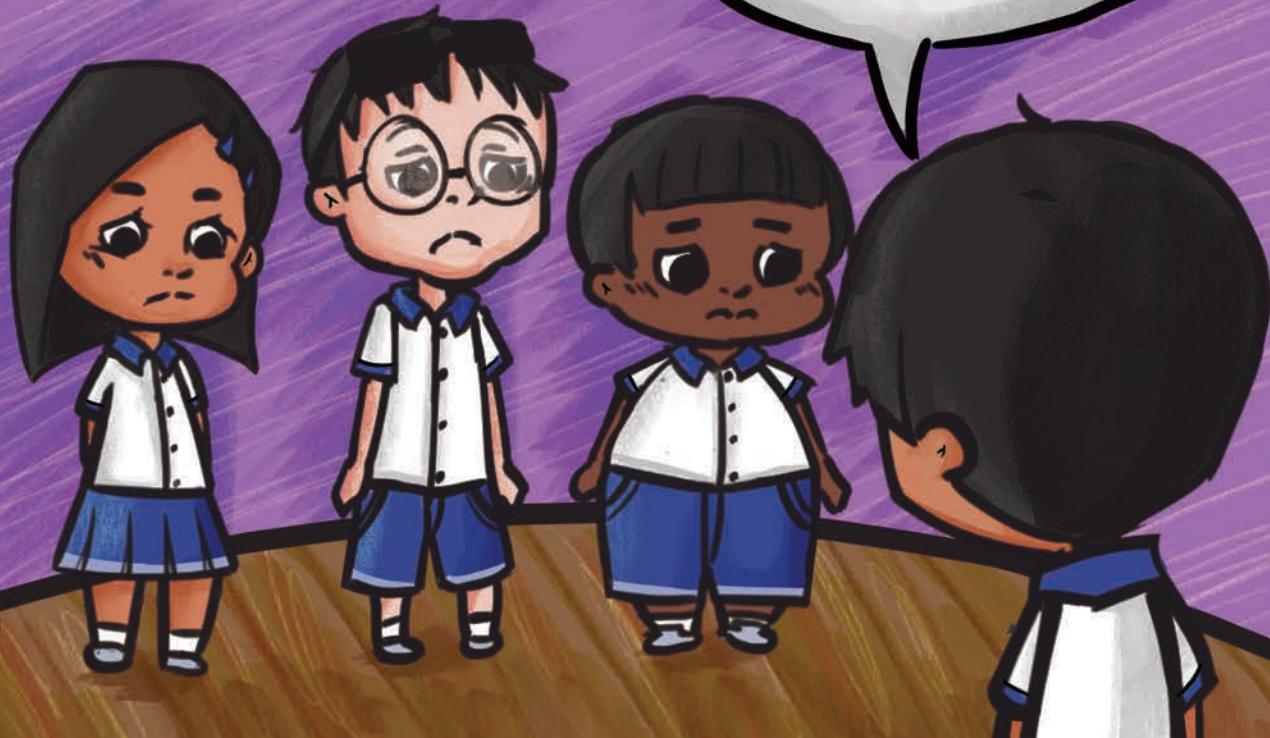

Pavan uses the armband to create a shield to trap the monster. Aida then uses her lightning bolts to destroy it.

With the monster destroyed, the kids and Captain Drug Buster approach the victim and reassure him that they are here to help.

The victim calms down and explains that he had purchased the drugs online hoping that it could keep his mind off family issues.

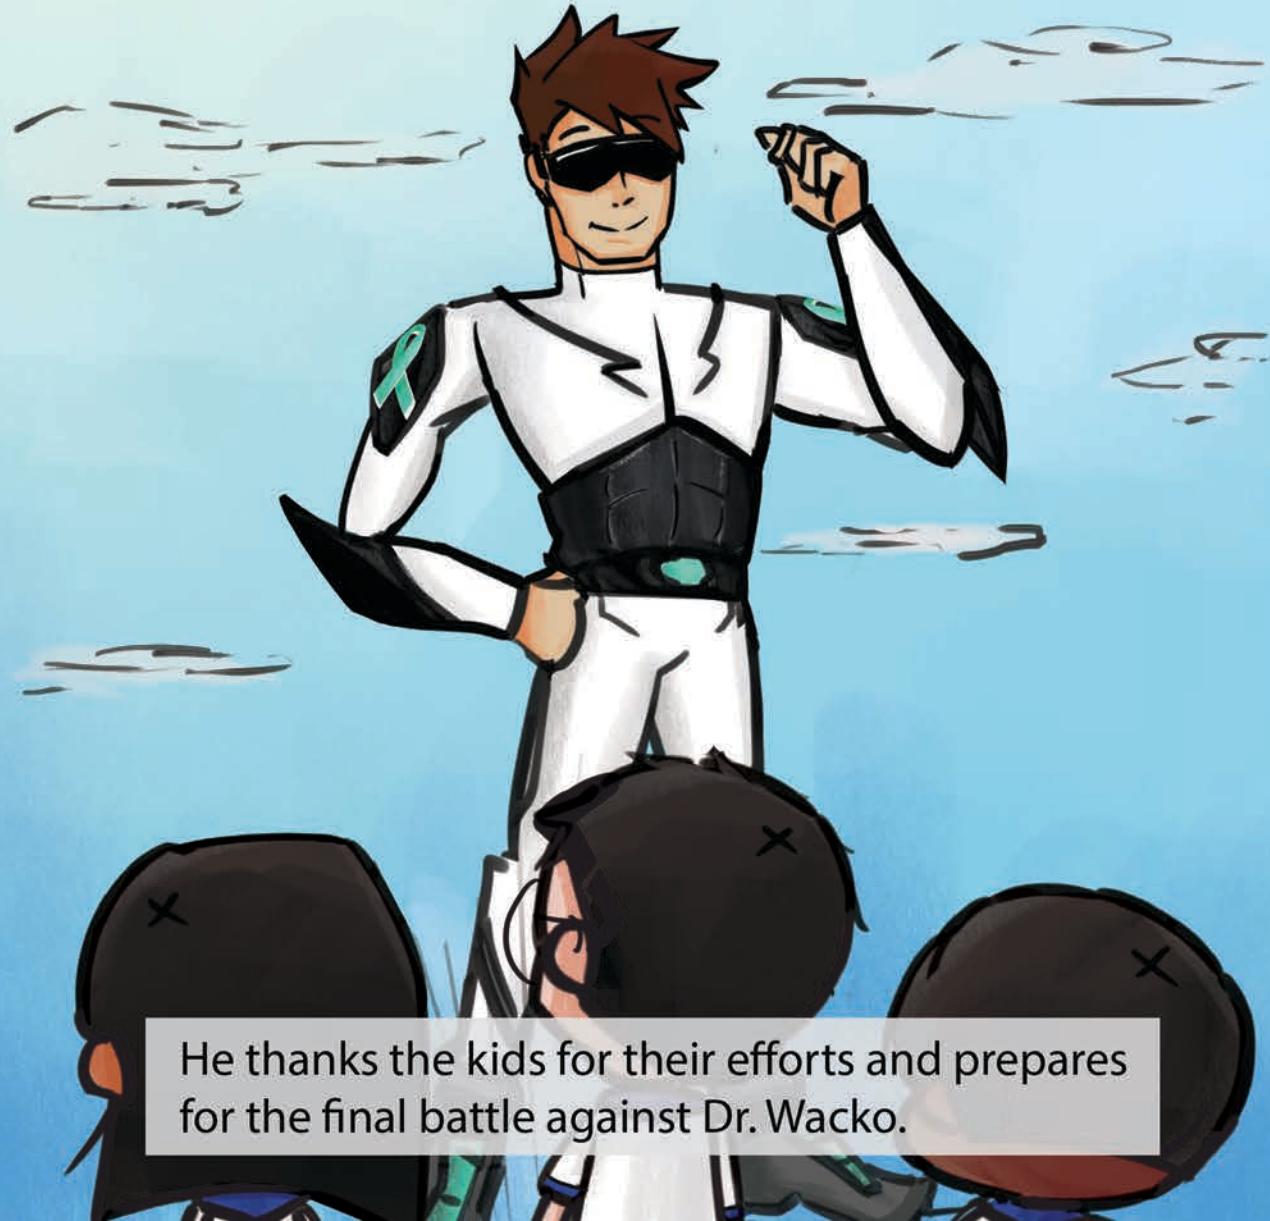

However, he became addicted to heroin over time and it caused him more harm than good.

Sympathizing with his situation, Captain Drug Buster tells him that he is not alone and he should seek support or interact with his friends.

With the last location cleared of monsters, Wei Ming's phone lights up again with a warm light. Captain Drug Buster has regained his strength and finally escapes from the phone!

He thanks the kids for their efforts and prepares for the final battle against Dr. Wacko.

Furious that his plans were ruined, Dr. Wacko makes his appearance and declares that he will destroy them.

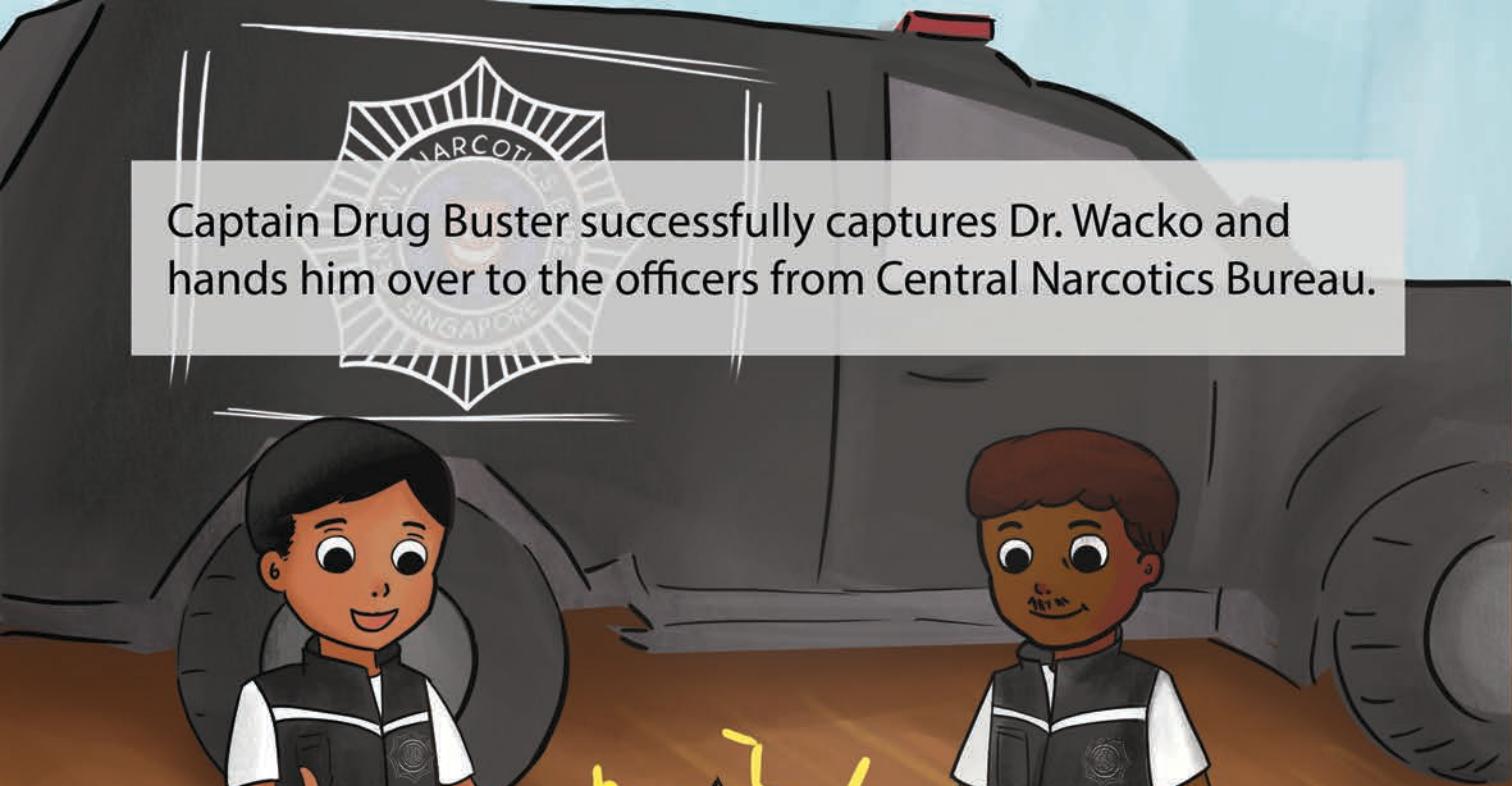

Using a bright flash, Dr. Wacko temporarily blinds Captain Drug Buster.

At this moment, all the kids step in to help Captain Drug Buster!

Seizing this opportunity, Dr. Wacko attacks Captain Drug Buster with his laser beam!

Captain Drug Buster successfully captures Dr. Wacko and hands him over to the officers from Central Narcotics Bureau.

Captain Drug Buster thanks the kids for their help. With Dr. Wacko arrested, Captain Drug Buster bids farewell to the kids and continues the quest to keep Singapore drug-free.

**THE END**
